# Single Cylinders, Europrofile 17 mm HZ

## Configuration

Housing in nickel-plated brass, reversible key made from nickel silver, housing in natural brass at no additional charge.  
Also available as a short cylinder (\*.HZ25\*\*)

## Included with the cylinder

3 reversible keys  
Kaba gemini S, quattro S and quattro pluS: plastic clip in Kaba blue  
Kaba penta: plastic clip in dark red  
1 cylinder fastening screw M5 x 65 mm  
Cam: standard 2x12 adjustable setting  
(in 15° increments, cam setting 0 is not permitted as per RAL standard):

Standard setting: 30° to the right with marking point viewed from front side of cylinder.

- 1) Unscrew cover on rear side of cylinder using a coin or screwdriver.
- 2) Remove coupling and cam hub.
- 3) Align cylinder on the template and turn cam to the desired position.
- 4) Slide cam hub into the housing as per the diagram.
- 5) Insert coupling into the cam hub.
- 6) Screw cover back on until it closes even with the housing.

# WC Cylinders, Europrofile 17 mm SYS.DZ.WC, with occupied/free indicator

## Configuration

Housing nickel-plated brass,  
housing in natural brass at no additional charge.  
WC cylinders come standard as a thumbturn cylinder

## Included with the cylinder

1 connecting screw M 5 x 65 mm

## Application

Visual indication from the outside, whether or not the toilet or lavatory is occupied (red) or free (green).

## Available systems

The WC cylinder has no cylinder insert and therefore can be used system independent.

Outside = indicator side  
Inside = knob side
