Kaba 5000 Panic Exit

Heavy-duty solution

Kaba 5000 Panic Exit

The Kaba panic exit device family - a solution for every situation

Kaba panic exit devices are designed to provide single action push type emergency egress from buildings such as places of public entertainment or commercial and industrial complex's where levers or knobs may not be suitable due to the use of manufacturing materials such as oils or fluids that would make it impossible to operate a single action downward device.

Application

It is suitable for the door:

- thickness: 1-3/4" wood or metal door
- width: - 3' standard for 2'-6" to 3' door width.
- 4' standard for 3' to 4' door width
